"Equipping believers and reaching the lost"

August 2010

Mission to Kenya

New Life Temple here in Cincinnati. It was such a dynamic life changing experience for me and the leaders who attended this training. God took us through an exciting journey of understanding our identity, purpose, potential, divine calling and our role in our local church. New Life Temple here in Cincinnati. It was such a dynamic life changing experience for me and the leaders who attended this training. God took us through an exciting journey of understanding our identity, purpose, potential, divine calling and our role in our local church.

This is what those who attended the training had to say. "I enjoyed your style of teaching, easy, simple to understand and invaluable; I will practice what I heard/understood. Great class! Thank you Pastor Boniface; This class has changed my life; I really enjoyed your teaching; We have been in leadership training for months but it wasn't until your teaching 'Preparation for Ministry' class that I've begun to accept where God has me and where He is leading me; Best class I've had so far; The class was awesome. I have been challenged in many areas of my life and in the ministry."

I have been challenged in many areas of my life and in the ministry." The class was awesome. I have been challenged in many areas of my life and in the ministry."

I look forward want to do more seminars, revival meetings and outreaches like ever before.

Hillcrest Training School

Sometime toward the end of last year the LORD opened doors for me to speak once (sometimes twice) a month at Hillcrest Training School which is a juvenile institution in Wyoming. During the orientation I had the privilege of meeting with the superintendent of the school. He is so passionate about seeing these kids make better choices in life. I have connected very well with them and my prayer is that I'll inspire them to pursue their God given dreams but most importantly that they will have a deeper relationship with Christ. In December last year I ministered at their Christmas program and had the privilege of leading several young men to Christ.

Men's Fellowship

It has been a blessing connecting with other men in the community and I have enjoyed both attending and ministering in various men's fellowships. My vision is to impact men in their relationship with God, spouse, family, church, community and their divine call in life.
